Petition in support of an Urban Forest Strategy

We, the undersigned residents of Canada, draw the attention of the House of Commons to the following:

WHEREAS urban forests impact almost 85% of the Canadian population.

AND WHEREAS among their many other benefits, trees provide oxygen and shade, remove pollutants, and directly impact communities, economies, human health and psychological well-being,

THEREFORE we call on the Government of Canada to enact motion M-68 to adopt a Canadian Urban Forest Strategy that asserts federal leadership in education about urban forests, as well as their protection, management and promotion.
