Petition to the House of Commons – "Protect the Thames River"

WHEREAS:

1. The Conservative government has made reckless changes to the Navigable Waters Protection Act, gutting environmental protections for waterways in Southern Ontario and across Canada.
2. Irene Mathyssen tabled Bill C-498, calling for Heritage protection of the North Thames, Middle Thames, and Thames Rivers.

We, the undersigned, call upon the Parliament of Canada to:

Enact Bill C-498, to amend the Navigable Waters Protection Act in order to provide Heritage protection for the North Thames, Middle Thames and Thames Rivers.
