

Petition in support of protecting the Thames River System

We, the undersigned residents of Canada, draw the attention of the House of Commons to the following:

WHEREAS the Conservative government stripped environmental regulations covered in the Navigable Waters Act, leaving hundreds of rivers vulnerable;

WHEREAS the ecological diversity of the North Thames, Middle Thames, and Thames River are at risk;

AND WHEREAS the Liberal government has failed to keep their promise to reinstate the environmental protections gutted from the original Act;

THEREFORE we call on the Government of Canada to support NDP Irene Mathyssen's Bill C-355 which commits the Government to prioritizing the protection of the Thames River by amending the Navigational Protection Act.
